INSTANT WARM PERINEAL COMPRESS

REDUCE PERINEAL TRAUMA

Our Instant Warm Perineal Compress helps reduce perineal pain prior to and post-childbirth by quickly providing soothing warmth, while encouraging tissue relaxation and increased blood circulation. More convenient than a warm sitz bath but equally as effective, our compress delivers maximum patient comfort with minimal nursing intervention.

BENEFITS

- **Soothes perineal area:** Encourages relaxation and blood circulation prior to childbirth
- **Promotes healing:** Helps the process begin after child birth and vasectomy procedures (typically 72 hours after cold therapy use)
- **Relieves tension:** Can also be used to soothe menstrual cramps

FEATURES

- Easy activation with FTP™ (Fold-to-Pop) technology
- Direct-to-skin application
- Delivers approximately 45.6°C/113°F of warm therapy when activated at room temperature
- Has an extra absorbent pad with a long front-to-back area for added coverage and an adhesive strip to keep it firmly in place
